

Household Contents Calculator

Household insurance cover is generally provided on a "new for old" basis, but the onus to ensure the sum insured is correct remains with you the policyholder. To enable you to decide as accurately as possible the real value of your property at today's price, we have devised a guide which we hope you will find useful, particularly if you are asked to quantify your sums insured following a large loss.

Living Room	Your Estimate
Sofa's / Chairs / Modern Furniture
